

Hello to my dear family, my name is Farid and I may be your future son in a few months, I am so excited to meet you guys and your country.

Let me tell you some things about myself my hobbies and my activities, I like Reading books , go hiking or biking so I can appreciate the landscape, playing basketball, I have been in a couple of tournaments with my basketball team. I like videogames, but my favorite thing in the world is playing the guitar, I´ve been learning for 8 years and I still dont get bored, I have a small band with 2 of my best Friends. We´re trying to make it a real thing, Maybe starting in graduations or small parties and from there let´s see what happens. This last Halloween during the “Day of the dead” my band and I made a “Nirvana” tribute concert. In witch I impersonate Kurt Cobain. It was a blast!.

Every now and then we do hiking trips to see our local atractions. Near my hometown we have a natural park protected by the UNESCO, we have been there several times, also there´s a paleolitic park where you can find fossils and dinosaur footprints. Those are my favorite field trips. Besides I love music, I like swimming and I absolutely adore watching movies, that is my favorite hobby. I could watch movies all day. I like to travel with my family and get to know new places.

We have a Dog, It´s an Alaska Malamute, and it´s like a second brother. We call him Tron, as the movie from the 90´s.

So, You are probably asking why I chose Denmark as the country I wanted to visit. The answer is mainly because of the food, also I like sailing, Denmark´s architecture

and also its closeness to other countries. I'm interested in, its safety, its weather, and being one of the happiest countries in the world, I hope that one is true!

My family has Lebanese and Italian ancestry. Lebanese by my father's side and Italian by my mother's. We get used to having family dinner during weekends and that makes us being in touch with all our relatives. Every now and then we make barbecues at home and we invite our friends to join us. In my family we like to have guests all the time.

I would like to make new friends in Denmark, friendships that will last forever and if I'm lucky contact them when I'm back in Mexico, I hope they will be there for me.

I would love to see what it is like to live in a country really conscious about its environment and nature, also the cultural movement of an advanced country, how it is to live in a monarchy and in a country where there's such a high level of justice, I am just so excited to be there, and I will put such an effort to be a part of the family.

I hope I can meet lots of people of my own age so I can hang out with them. As I told you before, I play the guitar and I don't know if I should take it with me, so I can still practice and maybe play a song for you guys.

Nå, dette kan være de mest relevante ting ved mig, og jeg håber virkelig at blive accepteret som udvekslingsstudent for dit land.

Håber vi ses snart.

Farid
