

Dear host family,

My name Puth which meaning from the religion that my father and mother respected. It refers to Buddhism, personally. I like the name; it tells me to try to be a better person every day. I am 162 cm tall, yellow skin, Group A, black hair and black eyes. I am a cheerful person. What I normally do is help my parents with household chores such as drying clothes, washing dishes and helping to take care of my younger siblings when my parents are away from home.

I went abroad a few times such as Korea and Japan, which I went back and forth before COVID. I really enjoyed visiting Japan. Japan has cute and interesting toys for me. The cool weather is perfect for walking, shopping and doing various activities during the day. My hometown is located near the capital city in Thailand and it's famous about street food which I love to try a lot. My favorite food is Thai dishes such as Som Tam, grilled chicken, vermicelli yum Tom Yum Kung Thickened Water Pad Thai Pork pan My favorite western dishes are pork steak, mushroom soup, pizza, carbonara, also Asian sushi and ramen.

Let's talk about my hobbies and things that I like to do

I love reading comic books. Fiction books Comic books, in my own way, are about the subject. Supernatural, fantasy, economy, knowledge around. Comic drawing books.

Of course, I like music I love listening to music in a universal language. My favorite singer is "Telenor Swift." I spent about a couple hours a day learning Danish from a music app, but right now it's only a start to learn. Wish me luck I will keep doing before next year.

Moreover, I love cooking at school during the daytime, because the fact that I cook for school helps me save money and eat delicious meals. One of my free day activities is drawing and crafting. I love drawing, about people, being cartoon characters, and I love inventing the little things as I have the opportunity. In the past activities that have been done during elementary school, I used to race taekwondo, I joined drawing classes, dance Classes badminton, swimming lessons, and always learn English.

My father, he enjoys taking me to many places where in the country he used to take me north where there are mountains and seas. Nowadays, it still takes me to different places so that I can have a broader perspective than ever before. Also, he enjoys doing activities such as diving, running, model rock climbing, hiking, etc.

My mother, she was a housewife, raising me and my siblings, she was a good person and was always there to help others. She stood out for making delicious treats. I have 2 siblings they both are younger than me we enjoy doing many things together. In term of the language, the language that can be used, the mother tongue is Thai. The second language I can use very well is English, between grammar and talk. I can talk better than grammar.

My house is out of town, where there is a large market within the community and there are also industrial facilities nearby to the community. Therefore, the lives of people in most communities have all known each other.

I ask myself about what is my plans for the future, think about how the experience gained from the exchange after returning from the program, what field of study would I will enroll with? In the future, I love traveling and meeting new people. I was expecting to make new friends. I had a new experience and would like to learn about philology, had a career in international communications, maybe a guide, and this profession that I was interested in because I could connect with new friends. These are my dream and future plan. I really hope being exchange students in Denmark this time will lead me to the right way. I have searched about Scandinavian culture which I think it suits me very well. It seems calm, relax, being with nature also have traditional culture like Thailand. So, it would be great for me to study and live there for almost 1 year and be the part of your family. I hope this letter let you know me and if we have the same thing in common, we can enjoy doing many activities together. I will prepare myself before going there as much as I can. I am learning Danish with music and movies and learn about your with reading.

Finally, thank you for opening your heart and sacrificing the time to read this letter of mine. Hopefully, you'll be open to me as part of your family.

Best regards,

Puth ☺
