

Dear Host family in the future.

Sawasdee ka! greeting from Thailand!

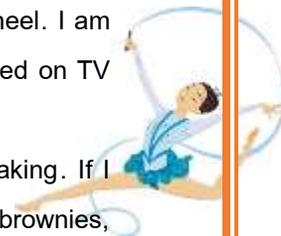

First of all, I'd like to thank you that you take the time to read my letter. I'm so excited to write to you and give you a better idea of who I am, I'll bring you closer to my life here, my wishes, family, friends and of course myself.

Hej! my name is Preraya from Thailand. I'm 15 years old. I live with my family in middle, It's a town next to Bangkok the capital of Thailand. I am friendly, cheerful and love to learn new things. My hobbies are watch movies, listening to music, singing (now I am practicing), cooking, baking and play sport. I usually do activities with my family and my friends in holiday.

My favorite sport is rhythmic gymnastics, I do gymnastics since I was 5 years old. I practice regularly and I have participated in competitions in my country and abroad. I've been to China, Malaysia and Dubai. With a passion of rhythmic gymnastics, I learned ballet since ballet techniques can be applied to rhythmic gymnastics. Now I am taking grade 5 ballet course at Royal academy of dance and grade 5 ballet course at the commonwealth sociality of teachers of dancing. When I was 7 years old, I had the opportunity to play one more sport jumping rope with my school. Then I have a chance, I was selected to represent the Thai national team to compete in China in this competition and I won a gold medal in the Chinese wheel. I am very proud and excited about this award. In addition, I also invited in various events and appeared on TV shows that interested in me.

I am very very enjoys eating and loves to try different foods so I like to cooking and baking. If I have free time, I always look up recipes on YouTube and try it out with my twin. I've made cookies, brownies, waffles, and other simple things. It always looks nice and tasty. If it looks good, I always share it to my friends. About food, I can cook basic Thai, Korean, Japanese. I hope to have the opportunity to make you eat too.

Let's me introduce my family. There are 6 people in my family, mom, dad, older sister, older brother, my twin and me. My dad is a businessman, he's quite busy of work to support any costs of my family. However, he never forgets to take care our family. My dad usually takes me to a trip whenever he got his work done. My dad really likes to travel. Next my mom, she is a house wife who takes care everything in a house and support me in everything whether it's about my studies or hobbies. About my lovely older sister, she is studying about cardiac technology. She is adorable, friendly, confident and eloquent. She also a good advisor for members in family and always help me. I think she has a very good perspective. Next my older brother, he is studying engineer. He can fix almost any broken things in our house, he's very good in technology.

He always teaches me my homework's that I don't understand. Even though he's not a good speaker, he always makes me understand the content better. He likes to go to the gym and play basketball, we have a basketball hoop in front of the house, sometimes I go out to play with him. Finally, the last member in our family my twin, I never feel lonely when she is by my side. We always do things together, eat together, sleep together and of course I'm closest to her. she is my friend and my family in the same time! When I have a problem, she will always give me some advice and help. I feel very lucky to have her by my side.

My school is a large government all-girls school in Bangkok with over 3,000 students. I usually go to school early in the morning. I'm going to meet up with my friends to practice jump rope together at the school gymnasium and when it's time to line up before class, it's my duty to help teachers check the cleanliness of the classroom and then go to class as usual.

With a passion of sports, when I went competition rhythmic gymnastics and jump rope in various places within the in my country and abroad, because in addition to the experience that I have gained from the competition every time I travel to competition, I had a chance to make new friends, traveled in various places, learnt new culture and saw something that I had never seen so being an exchange student is one of my goals in life. I think it will be a good experience in life, let me learn a new culture, have the chance to meet new friends and open up the world in new perspectives. Also, my older sister was an exchange student in Finland and my brother was an exchange student in the U.S.A. They told me about their wonderful experience during their time as an exchange student. They are very fun and happy. It made my heart swell and I was more determined to go as an exchange student. I have been researching different countries. I am particularly interested in Denmark. Because I think Denmark is a very safe country, friendly people. There is still be a good nature and beautiful city (I really like nature). there here is an interesting culture and there is also reputed to be one of the happiest people in the world. I wish I had the opportunity to learn a new culture. Get to see the beauty of various places, try different foods, learn how to cook Danish food. I am confident that I will be able to adapt and accept A new experience of being an exchange student. If I was an exchange student there, I will focus on learning the Danish language and culture in order to enjoy life as much as possible.

I'd like to thank you very much for taking the time to get to read this. I'm looking forward to see you soon and also becoming a part of your family. I'm willing to spend a great time together with you and make it an unforgettable year for both of us. Please take care of yourself and be healthy.

Once again, I would like to thank you deeply for taking the time to read this letter of mine.

With love, Preraya
