

To my dear host

Hello, my name is Grace. I would like to introduce myself through this letter. I come from Thailand. Personally, I am a cheerful and outgoing person who enjoys traveling, loves dogs, and likes engaging in various activities. I can be described as someone full of energy. In my free time, I like playing sports, reading books, and watching movies. I have a broad interest, whether it's sports, books, or any type of movie.

Speaking of sports, my favorite is badminton. I developed a love for badminton by playing it with family and friends frequently. I started playing it seriously when I was in grade 9, and eventually became a badminton representative for my school, competing against other schools in the province. It has been a fantastic experience and a fond memory for me.

Next, let me introduce my family to you. My family consists of five members, including my father, mother, older sister, myself, and a younger brother. We often spend our free time and holidays together, going on trips and engaging in activities. My father is involved in the export business and occasionally travels abroad. He also manages a fish farm. My mother owns a fishing business and buys various types of fish. My older sister and younger brother are still studying. We are a close-knit family, and my parents are supportive and excellent advisors to us.

When I don't feel well or have concerns, I usually talk to my mother or discuss it with my sister.

Currently, I am in grade 10, following the Science-Mathematics curriculum at a government school in Thailand. In my class of 18 students, I have five close friends with whom I can talk about anything. In Thailand, we have a university entrance examination system called TCAS, and I am part of the TCAS club, where students from all over the country gather to prepare for the exams and exchange information. My goal after high school is to study medicine because I am passionate about health and helping people. I believe in the motto, "Effort never betrays anyone."

I think participating in this student exchange program will provide me with valuable experiences and improve my English language skills in speaking, listening, writing, and reading. I am excited about the opportunity to be an exchange student and am grateful to your family for opening your home and hearts to me.

Thank you sincerely for taking the valuable time to read this letter, and I am delighted and grateful that you have welcomed me to be a part of your family.

Grace.
