

Hello, my name is Jano, and I am from Argentina.

I hope whoever receives this letter is very well. I would like to tell you a little about me.

I live in a small town which is quiet and comfortable. There are very respectful and kind people, also is a touristic place, because here is the largest salt lagoon in South America and fifth in the world, we have more than five hundred species of birds.

My dad is dedicated to raising chickens with a very long field and my mom is a primary school teacher, I like both of their jobs and I'm very proud of them.

My house is one hundred km from my school. I have to share a room with my brother, before I used to study there but now I study in my kitchen because it is more comfortable.

I go to a boarding school, so I live there from Monday to Friday. My school is one of the best and I like it a lot. It is agrotechnical and this year we are making ice cream, jam, marinade, I also work in mechanics, cereals and oilseeds for animal foods. In other school years we had gardening, farm, rabbit and chicken care, calf rearing cleaning. My favorite subject is history.

In my free time I usually do sport but my favorite is soccer. I have training every day, also I have many medals and recognitions between championships, tournaments and league finals. I like hang out with my friends everywhere. We go out to eat or to the movies. Also I like art and music.

I like to be sociable because I like to get along with everyone. I like to participate in social activities. I'm a little distracted person but I'm working on improving it. I would like to tell you that I am sensitive and a caring person.

There are many people who always ask me what I want to study or be when I grow up and the truth is that I don't have a very clear answer at the moment but probably something related to soccer because it is what catches my attention the most and what I like. I also hope that this exchange program will help me look for more options to dedicate myself to when I grow up.

For my exchange destination I wanted to choose a place where I can feel comfortable and that it is a beautiful and secure place, so I decided that Denmark was the right one, a very good country, with good and friendly people. I would like to learn your culture, customs and get to know new places.

I want to thank you for welcoming me into your home. I hope we can create a very good bond between us and share moments together. I'm excited to travel and meet you.

Sincerely from Jano
